The private placement was well received by investors with a significant level of oversubscription. CSL's Chief Financial Officer, Mr Gordon Naylor, said, "We were very pleased to achieve a good outcome for the Company. This has been our fourth issue in this market since 2011 and we now have approximately USD2.1 billion of US Private Placement debt outstanding. This market provides CSL with flexibility in funding currencies and maturities. We are grateful for the support of this important debt market which again has recognised the sustainability of our business model."

The proceeds from the private placement will be used to fund the Group's capital management plan and for general corporate purposes.
